THE LIVE EDGE

Difference

Most furniture makers cut the perimeter of the wood into straight edges. We believe the beauty is in the natural lines so we leave them as they are. No two pieces are alike!

DINING TABLES

Built to Impress

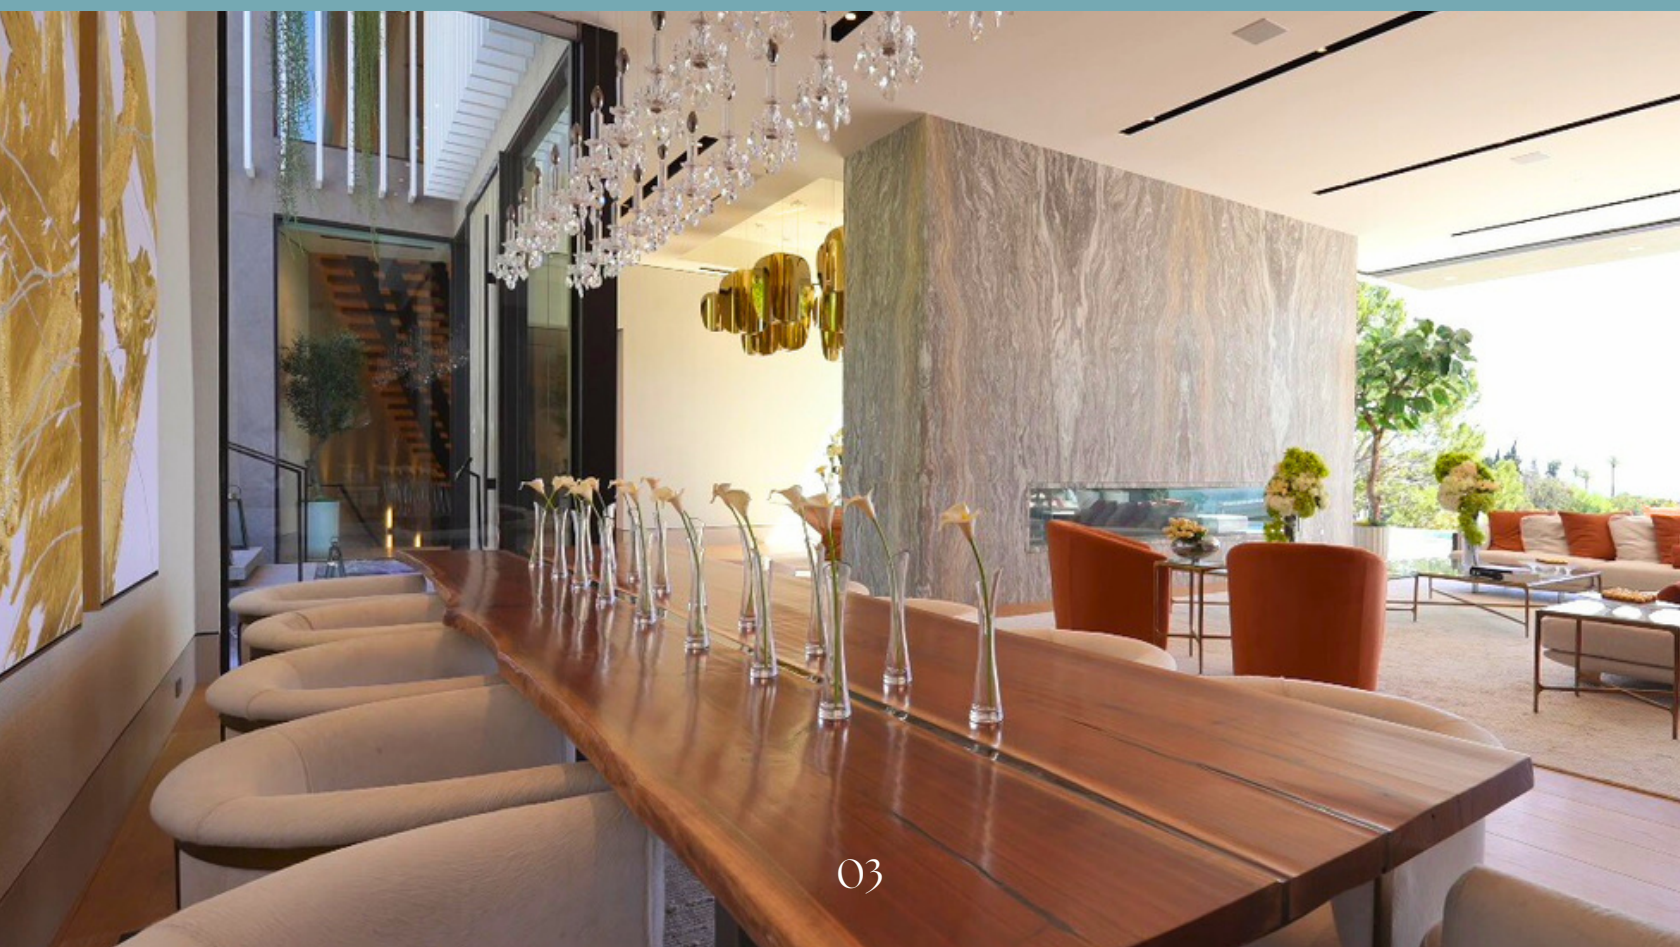

Size reference guide:

36" x 36" seats 4
8' x 36" seats 6
10' x 40" seats 8
12' x 42" seats 10

You choose the slab
of wood
& dimensions.
You can even
help pour the
epoxy!

KITCHEN & BATH

Whether you need a
table, island, bench
seating, vanity, or
counterop...
We've got you covered.

We can also
engrave any of
our items
including
countertops!

HOME OFFICE

Built to last. Designed to inspire.

We customize every desk to make it work for *you*.

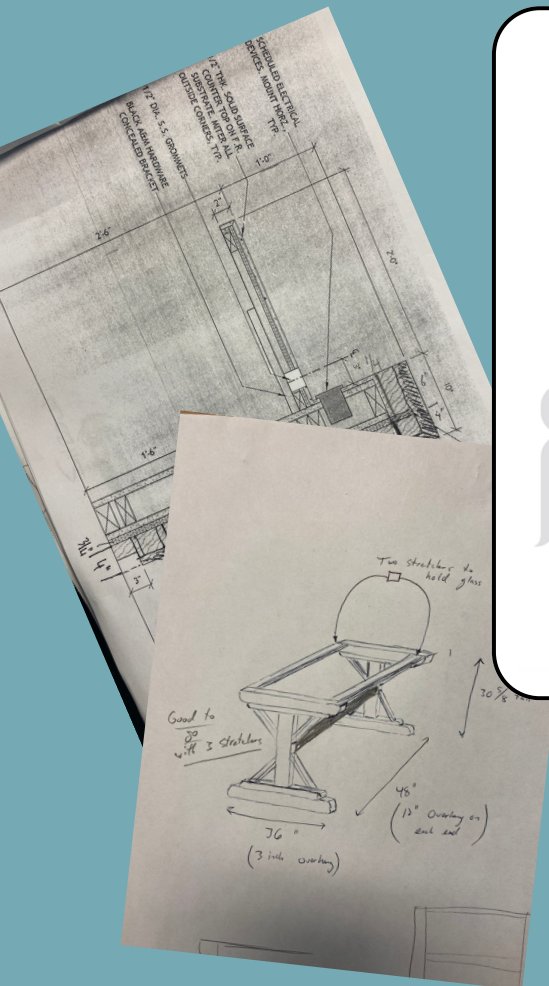

THE CUSTOM PROCESS

"Custom" means exactly that.
We create furniture with YOUR ideas,
YOUR style and YOUR imagination.

Working with us is like having a personal designer at your fingertips.

The other desks we sold with this slab, the part straight edge is the back. But I wanted to double check with you

Oh it's so pretty!

Do u mean straight edge is where you sit or under the shelf?

Straight edge faves the wall, where the shelf would be mounted

We finally had a chance to get some of the initial cut-out done like we had discussed. We still have the far edge to do anything with on the "left side", but this river looks pretty symmetrical and got to keep all the figured wood. Thoughts?

You'll receive pictures and updates throughout your project!
